OBJECTIVE

- AI-driven meditation
- Symptom-based analysis
- Personalized suggestions
- Stress & anxiety relief
- Emotional well-being

CHALLENGES

- User Trust
- Diversity in Health Conditions
- User Education
- Continuous Updates
- Regulatory Compliance

SWOT ANALYSIS

STRENGTHS

- **Personalization** – Tailored recommendations
- **AI-driven** – Smart decision-making
- **User-friendly** – Simple interface

WEAKNESSES

- **Data dependency** – Needs extensive data
- **Niche focus** – Limited to meditation
- **Complex algorithms** – May require optimization

OPPORTUNITIES

- **Mental wellness boom** – Growing demand for solutions
- **Cross-platform use** – Potential for integration in apps
- **Expansion** – Can add more wellness features

THREATS

- **Competitors** – Similar apps in the market
- **Data privacy** – User concerns over health data
- **Accuracy risks** – Misleading recommendation

TOOLS AND TECHNIQUES

Backend

GPT-4

Framework

Streamlit

Language

Python-3
